

**CITY OF DUNDAS
BUILDING INSPECTIONS DEPARTMENT
DUNDAS CITY HALL
216 RAILWAY STREET NORTH, PO BOX 70
DUNDAS, MN 55019
507-645-2852**

**REQUIREMENTS FOR AN EROSION AND SEDIMENT CONTROL PLAN FOR
CONSTRUCTION OF SINGLE FAMILY HOMES AND ACCESSORY STRUCTURES**

Are the following items adequately addressed on the plan?

1. Description of the project.
2. Building locations and distance to property lines or wetlands.

Topographic, Drainage, and General Site Features

1. Identify existing vegetation.
2. Location and name of all wetlands, lakes, and water courses on and adjacent to the site. (If applicable)
3. 100-Year Floodplains, Floodway fringes, and Floodways. (If applicable)
4. Existing and planned contours at an interval appropriate to indicate drainage patterns and silt fencing. (Show on survey or plat drawing) (Verify with approved Grading Plan.)
5. Location of specific points where storm water discharge will leave site.
6. Location of storm water system. (Include culverts, storm sewers, channels and swales)
7. Location of septic system. (Not Applicable)

Erosion and Sediment Control Measures

1. Temporary Erosion and Control Measures. (Location of silt fencing) Show on survey or plat drawing.
2. Permanent Erosion and Sediment Control Measures. (Location, Construction Detail, Dimensions, and Specifications) (If applicable)
3. Storm Drain Inlet Protection. (Location, Construction Detail, Dimensions, and Specifications) (If applicable)
4. Storm Water Outlet Protection. (Location, Construction Detail, Dimensions, and Specifications) (If applicable)
5. Stable Construction Entrance. (Rock, Gravel Size, Location, Length Dimension)
6. Site / lot access to be limited to single rock entrance.

NOTE: THE ABOVE REQUIREMENTS MUST BE IN PLACE PRIOR TO ANY INSPECTIONS.
