INDEPENDENT AUDITOR'S REPORT

3135A Superior Drive NW Rochester, Minnesota 55901 (507) 281-2655 FAX (507)281-4439 e-mail: tmc_accountant@yahoo.com

Honorable Mayor Members of the City Council City of Dundas, Minnesota

Report on the Financial Statements

I have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Dundas, Minnesota, as of and for the year ended December 31, 2016, which collectively comprise the City of Dundas, Minnesota's basic financial statements as listed in the table of contents, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

My responsibility is to express opinions on these financial statements based on my audit. I conducted my audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that I plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, I express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In my opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the **City of Dundas, Minnesota** as of December 31, 2016, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Honorable Mayor Members of the City Council City of Dundas, Minnesota

Other Matters

Required Supplementary Information

Accounting principle generally accepted in the United States of America require management's discussion and analysis on pages 3 to 10, the schedules of employer's share of the net pension liability and the schedules of employer's pension contribution on pages 47 and 48, and budgetary information on pages 49 to 54 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. I have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to my inquiries, the basic financial statements, and other knowledge I obtained during my audit of the basic financial statements. I do not express an opinion or provide any assurance on the information because the limited procedures do not provide me with sufficient evidence to express an opinion or provide any assurance.

Other Information

My audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City of Dundas, Minnesota's financial statements as a whole. The combining and individual nonmajor fund financial statements are presented for purposes of additional analysis and are not a required part of the financial statements.

The combining and individual nonmajor fund financial statements are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In my opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

Thomas M. Cummings

Certified Public Accountant

June 12, 2017

As management of the City of Dundas, we offer readers of the City of Dundas's financial statements this narrative overview and analysis of the financial activities of the City of Dundas for the fiscal year ended December 31, 2016.

Overview of the Financial Statements

The discussion and analysis are intended to serve as an introduction to the City of Dundas's basic financial statements. The City of Dundas's basic financial statements comprise three components: 1) government-wide financial statements, 2) fund financial statements, and 3) note to the financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves.

Government-wide Financial Statements. The governments-wide financial statements are designed to provide readers with a broad overview of the City of Dundas's finances, in a manner similar to a private-sector business.

The statement of Net Position presents information on all of the City of Dundas's assets and liabilities, with the difference between the two reported as Net Position. Over time, increases or decreases in Net Position may serve as a useful indicator of whether the financial position of the City of Dundas is improving or deteriorating.

The statement of activities presents information showing how the City's Net Position changed during the most recent fiscal year. All changes in Net Position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g. uncollected taxes and earned but unused vacation leave).

Both of the government-wide financial statements distinguish functions of the City of Dundas that are principally supported by taxes and intergovernmental revenues (governmental activities) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (business-type activities), The governmental activities of the City of Dundas include general government, public safety, public works, economic development, and recreation. The business-type activities of the City of Dundas include water, sanitary sewer, and storm drainage.

Fund Financial Statements. A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The City of Dundas, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the City of Dundas can be divided into three categories: governmental funds, proprietary funds, and fiduciary funds.

Governmental Funds. Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financial requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statement. By doing so, readers may better understand the long-term impact of the City's near term financial decisions. Both the governmental fund balance sheet and governmental fund statement of revenues, expenditure, and change in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

The City of Dundas maintains three individual major governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures and changes in fund balances for the general fund and two special revenue funds, all of which are considered to be major funds. Data from the other governmental funds are combined into a single, aggregated presentation. Individual fund date for each of these non-major governmental funds is provided in the form of combining statements elsewhere in this report.

The City of Dundas adopts an annual appropriated budget for its general fund. A budgetary comparison statement has been provided for those funds to demonstrate compliance with this budget.

Proprietary Funds. The City of Dundas maintains one type of proprietary funds, that being enterprise funds. Enterprise funds are used to report the same functions presented as business-type activities in the government-wide financial statements. The City of Dundas uses enterprise funds to account for its sanitary sewer, water, refuse and storm drainage operations.

Proprietary funds provide the same type of information as the government-wide financial statements, only in more detail. The proprietary fund financial statements provide separate information for the sanitary sewer, water, refuse and storm drainage operations.

Notes to the Financial Statements. The notes provided additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

Other Information. The combining statements referred to earlier in connection with non-major governmental and enterprise funds and are presented immediately following the required supplementary information on pensions.

Government-wide Financial Analysis

Net position may serve over time as a useful indictor of a government's financial position. In the case of the City of Dundas, assets exceed liabilities by \$12,623,075 as of December 31, 2016, with \$4,019,085 of net position from governmental activities and \$8,603,990 from proprietary funds.

The largest portion of the City's net position is the investment in capital assets. The City uses these capital assets to provide services to citizens; therefore, these assets are not available for future spending. The City's investment in its capital assets are reported net of related debt, it should be noted that resources needed to repay this debt must be provided from other sources, since capital assets themselves cannot provide resources to liquidate these liabilities.

Government Funds. The focus of the City of Dundas' governmental funds is to provide information on near-term inflows, and balances of spendable resources. Such information is useful in assessing the City of Dundas' financing requirements. In particular, unreserved fund balance may serve as useful measure of a government's net resources available for spending available at the end of the fiscal year.

Capital Assets and Debt Administration

The City of Dundas' investment in capital assets for its governmental and business type activities as of December 31, 2016, amounts to \$14,036,608 net of accumulated depreciation. This investment in capital assets includes, land, buildings, infrastructure, machinery and equipment.

CITY OF DUNDAS, MINNESOTA RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES AND CHANGES IN FUND BALANCES TO THE STATEMENT OF ACTIVITIES GOVERNMENTAL FUNDS YEAR ENDED DECEMBER 31, 2016

Reconciliation of the change in fund balances – total governmental funds To the change in Net Position of governmental activities:

| Net change in fund balances - total governmental funds | \$ | 438,494 |
|--|----------|-----------|
| Amounts reported for governmental activities in the Statement of Activities are | | |
| Different because: | | |
| Governmental funds report capital outlays as expenditures However, in the statement | | |
| of activities those assets are reported as depreciation to allocate those | | |
| expenditures over the life of the assets: | | |
| Capital assets purchases capitalized | | |
| Depreciation Expense | | (199,154) |
| Revenues in the statement of activities that do not provide current financial | | |
| resources are not reported as revenues in the funds: | | |
| Property taxes | | 5,041 |
| Developer fees | | 43,153 |
| Bond proceeds provide current financial resources to governmental funds but increase liabilities in the Statement of Net Position. Repayment of debt principal is an expenditures in the governmental funds, but the repayment reduces long-term liabilities in the Statement of Net Position | | |
| Capital debt principle payments | | 270,000 |
| Some expenses reported in the statement of activities do not require the use of current financial resources and therefore are not reported as expenditures in governmental funds: | | |
| Change in bond accrued interest | | 4,079 |
| Amortization of bond premium | | 2,333 |
| Amortization of bond discounts | | (1,274) |
| Compensated absences | | (4,595) |
| Long-term pension activity is not reported in governmental funds financial | | |
| Resources and are not reported as expenditures | | |
| Pension (expense) revenues | | (86,129) |
| Change in Net Position of Governmental Activities | <u>s</u> | 385,642 |

CITY OF DUNDAS, MINNESOTA NOTES TO THE FINANCIAL STATEMENTS DECEMBER 31, 2016

NOTES TO THE FINANCIAL STATEMENTS

NOTE 1: Summary of Significant Accounting Policies

A. Reporting Entity

The City of Dundas is a municipal corporation, incorporated under the laws of the State of Minnesota. The city is governed by an elected mayor and four council members. The Council exercises legislative authority and determines all matters of policy.

Component units are legally separate entities that are fiscally dependent on the primary government or for which the primary government is financially accountable. As of December 31, 2016, there were no entities that met the requirements to be considered a component unit of the City.

B. Government Wide and Fund Financial Statements

The government wide financial statements (statement of net position and the statement of changes in net position) report information on all of the nonfiduciary activities of the City. For the most part, the effect of interfund activity has been removed from these financial statements. Governmental activities, which are normally supported by taxes and intergovernmental activities, are reported separately from business type activities, which rely to a significant extent on fees and charges for services.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment, are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include 1) charges to customer or applicants who purchase, use or directly benefit from goods, service or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as general revenues.

Separate financial statements are provided for governmental funds and proprietary funds. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements.

NOTES TO THE FINANCIAL STATEMENTS

NOTE 1: Summary of Significant Accounting Policies (continued)

C. Measurement Focus, Basis of Accounting and Financial Statement Presentation

The government wide financial statements are reported using the economic resource measurement focus and the accrual basis of accounting, as are the proprietary fund financial statements. With the economic resource measurement focus, revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of the related cash flow. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenues as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the City considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures are generally recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditure related to compensated absences are recorded only when a payment is due.

Property taxes, licenses and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. Only the portion of special assessments receivable due within the current fiscal period is considered to be susceptible to accrual as revenue of the current period. All other revenue items are considered to be measurable and available only when cash is received by the City.

The City reports the following major governmental funds:

General Fund, The general fund is the City's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.

Tax Increment Improvement Fund, This fund is a special revenue fund type and accounts for the development activities within tax increment districts.

Annexation Tax Rebate Fund, This fund is used to account for the resources used to repay townships for property annexed into the City.

NOTES TO THE FINANCIAL STATEMENTS

NOTE 1: Summary of Significant Accounting Policies (continued)

B. Measurement Focus, Basis of Accounting and Financial Statement Presentation (continued)

The City reports the following major proprietary funds:

Water Utility Fund, This fund is an enterprise fund type and accounts for the activities related to the operation of a water distribution system.

Sewer Utility Fund, This fund is an enterprise fund type and accounts for the activities related to the operation of a sanitary sewer collection and treatment system.

As a general rule, the effect of interfund activity has been eliminated from the government wide financial statements. Exceptions to this rule are charges between the City's water, sewer, and refuse functions. Elimination of these charges would distort the direct costs and program revenues reported from the various functions.

Amounts reported as program revenues include 1) charges to customers or applicants for goods, services, or privileges provided, 2) operating grants and contributions, and 3) capital grants and contributions, including special assessments. Internally dedicated resources are reported as general revenues rather than as program revenues. Likewise, general revenues include all taxes.

Proprietary funds distinguish operating revenues and expenses from nonoperating item. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenue of the City's enterprise funds are charges to customers for sales and services. Operating expenses for enterprise funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

NOTES TO THE FINANCIAL STATEMENTS

NOTE 1: Summary of Significant Accounting Policies (continued)

D. Budgets and Budgetary Accounting

Formal budgetary accounting is employed as a management control for all funds used by the City Annual budgets are adopted each fiscal year through the passage of an annual budget ordinance and may be amended by formal Council action. The budget for all funds are adopted on a basis of accounting consistent with generally accepted accounting principles All budget appropriations lapse at year-end.

E. Cash and Investments

The City maintains a cash pool for all funds of the City. The City maintains all deposits and investments in accounts in the name of the City. The deposits are invested on a short-term basis with interest earnings allocated to each fund based upon their relative share of the pooled account balance.

For purposes of the statement of cash flows all pooled cash and investments are considered to be cash and cash equivalents.

F. Investments

Governmental Accounting Standards Board No. 31, "Accounting and Financial Reporting for Certain Investments" has been implemented. Investments with original maturities greater than one year are stated at fair value. Fair value is estimated based upon quoted market prices at year end. All investments not required to be reported at fair value are stated at cost or amortized cost.

G. Property Taxes

Property tax levies are set by the City Council in December of each year and are certified to Rice County for collection in the following year. In Minnesota, counties act as collection agents for all property taxes.

Rice County spreads all levies over taxable property. Such taxes become a lien on January 1 the following year, and are recorded as receivables by the City at that date. Revenue from property taxes are accrued and recognized in the year collectable, net of delinquencies.

Property taxes may be paid by taxpayers in two equal installments on May 15 and October 15. Personal property taxes may be paid on February 28 and June 30. The County provides tax settlements to cities and other taxing districts normally during the months of January, June and December.

NOTES TO THE FINANCIAL STATEMENTS

NOTE 1: Summary of Significant Accounting Policies (continued)

H. Special Assessments

Assessments are levied at various times by City resolution for property owner improvements made by the City. Assessment collections are deferred over a period ranging from five to twenty years with interest charged at rates ranging from 6% to 7%.

I. Bond Discounts and Premiums

In the government wide financial statements, and proprietary fund types in the fund financial statements bond discounts, premiums are deferred and amortized over the life of the bond using the interest method.

In the fund financial statements, governmental fund types recognize bond premiums, discounts and issuance costs during the current period. The face amount of debt issued is reported as other financing sources. Premium and discounts are reported as other financing uses. Issuance costs are reported as debt service expenditures.

J. Capital Assets and Depreciation

Capital assets, which include property, plant, equipment and infrastructure assets, are reported in the applicable governmental or business type activities columns in the government wide financial statements. Capital assets are defined by the City as assets with an initial individual cost of more than \$1,000 and an estimated useful life in excess of 2 years. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value on the date of donation.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend asset lives are not capitalized.

Major outlays for capital assets and improvements are capitalized as constructed.

Plant and equipment of the City are depreciated using the straight line method over the following estimated useful lives:

| Assets | _ Years |
|---------------------------|----------|
| Sewer collection system | 40 |
| Water distribution system | 7 to 25 |
| Equipment | 5 to 10 |
| Building and structures | 10 to 40 |
| Vehicles | 5 |
| Land improvements | 10 |
| Infrastructure | 25 to 40 |

NOTES TO THE FINANCIAL STATEMENTS

NOTE 1: Summary of Significant Accounting Policies (continued)

J. Capital Assets and Depreciation (continued)

Infrastructure assets include roads, bridges, underground pipe (other than related to utilities), traffic signals, etc.

K. Compensated Absences

Vested or accumulated vacation leave that is expected to be liquidated with expendable available financial resources is reported as expenditure and a fund liability of the governmental fund that will pay it. A liability is recorded for sick pay benefits, to the received in accordance with City policy.

L. Long-Term Obligations

In the government wide financial statements, and proprietary fund types in the fund financial statements, long-term obligations are reported as liabilities in the applicable governmental activities, business-type, and proprietary fund type statement of Net Position. Bonds payable are reported net of applicable bond premium or discounts.

Long-term debt is recorded as a liability of a governmental fund when due, or when resources have been accumulated in the debt services fund for payment early in the following year.

M. Fund Classifications

Government-wide and Proprietary Financial Statements

Equity is classified as net position and displayed in three components:

Invested in capital assets, net of related debt - Consists of capital assets including restricted capital assets, net of accumulated depreciation and reduced by the outstanding balances of any outstanding bonds, notes, and other borrowings that are attributable to the acquisition, construction, or improvement of those assets.

Restricted—Consists of net position with constraints placed on the use either by external groups or by enabling legislation.

Unrestricted – All other net position not included in the captions "Invested in net position" or "Restricted net position" are included here.

M. Fund Classifications (continued)

Fund Financial Statements

In the fund financial statements, governmental funds report classifications that comprise a hierarchy based primarily on the extent to which the City is bound to honor constraints on the specific purpose for which amounts in those funds can be spent.

- Nonspendable Fund Balance These are amounts that cannot be spend because they are not in spendable form.
- Restricted Fund Balance These are amounts that are restricted to specific purposes
 either by a) constraints placed on the use of resources by creditors, grantors,
 contributors, or laws or regulations of other governments or b) imposed by law through
 enabling legislation.
- Committed Fund Balance These are amounts that can only be used for specific purposes pursuant to constraints imposed by formal action of the City Council (highest level of decision making authority).
- Assigned Fund Balance These are amounts that are constrained by the City's intent to be used for specific purposes but are neither restricted nor committed. Assignments may be made by the City's Finance Director based on the City Council's delegation.
- Unassigned Fund Balance These are residual amounts in the General Fund not reported in any other classification. The General Fund is the only fund that can report a positive unassigned fund balance. Other funds would report a negative unassigned fund balance should the total of nonspendable, restricted and committed fund balances exceed the total net resourced of that fund.

N. Interfund Activity

During the course of normal operations, numerous transactions occur between individual funds that may result in amounts due between funds. Those related to goods and service type transactions are classified as "due to and due from other funds". Short-term interfund loans are reports as "interfund receivables and payables". Long-term interfund loans are reported as "advances from and to other funds" Interfund receivables and payables between funds within governmental activities are eliminated in the Statement of Net Position.

Permanent allocations of resources between funds are classified as interfund transfers. For the purpose of the Statement of Activities, all interfund transfers between governmental funds have been eliminated.

O. Use of Estimates in Preparation of Financial Statements

The preparation of financial statements in accordance with generally accepted accounting principles requires that management make estimates and assumptions that affect reported amounts of assets, liabilities, revenues, expenses and expenditures. Actual results may differ from those estimates.

NOTES TO THE FINANCIAL STATEMENTS

NOTE 1: Summary of Significant Accounting Policies (continued)

P. Concentration of Credit Risk

Substantially all of the City's revenues are generated from the citizens of Dundas. The ability of the City to repay long-term obligation and provide for services is dependent on the economic strength of the Dundas area.

Financial instruments, which may expose the City to a concentration of credit risk, are primarily cash and investments. The credit risks associated with cash and investments are discussed in Note 2.

Q. Pensions

For purposes of measuring the net pension liability, deferred outflows/inflows of resources, and pension expense, information about the fiduciary net position of the Public Employees Retirement Association (PERA) and additions to/deductions from PERA's fiduciary net position have been determined on the same basis as they are reported by PERA except that PERA's fiscal year end is June 30. For this purpose, plan contributions are recognized as of employer payroll paid dates and benefit payments and refunds are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value

NOTE 2: Deposits and Investments

The City pools substantially all individual fund cash balances. Each fund's portion of this pool is displayed on the statements of Net Position as "Cash and Cash Equivalents".

Selected investments are invested on a fund by fund basis. Those funds with separate investments are reported separately on the statements of Net Position.

Deposits:

In accordance with Minnesota Statutes, the City maintains its deposits with national banks; insured state banks and thrift institutions. Minnesota Statutes require that all City deposits be insured, secured by a surety bond or be collateralized, and the market value of collateral must be equal to 110% of the deposits not covered by insurance or surety bonds.

The City's deposits in banks at December 31, 2016 were entirely covered by Federal Deposit Insurance or collateralized by securities held by the financial institution's agent in the name of the City

Investments:

The City has adopted an investment policy that conforms to all applicable laws of the State of Minnesota. The objective of the City's investment program is to preserve capital and protection of the investment principal. Investments are made under the assumption that, except under limited circumstances, all investments will be held to maturity.

Separate investment policies or agreements may exist to address proceeds from certain bond issues or debt service funds in accordance with various external agreements.

NOTES TO THE FINANCIAL STATEMENTS

NOTE 2: Deposits and Investments (Continued)

Interest Rate Risk

Interest rate risk is the risk that changes in market interest rates will adversely affect the fair value of an investment. Generally, the longer the maturity of an investment the greater the sensitivity of its fair value to changes in market interest rates. The City does not have a formal policy limiting investments maturities that would help manage its exposure to fair value losses from increasing interest rates.

Credit Risk

Generally, credit risk is the risk that an issuer of an investment will not fully fulfill its obligation to the holder of the investment. This is measured by the assignment of a rating by a nationally recognized rating service. All of the City's investments are rated AAA by the S & P rating service.

Concentration of Credit Risk

The investment policy of the City contains no limitation on the amount that can be invested in any one issuer.

Custodial Risk

For investments, custodial risk is the risk that, in the event of the failure of the counter party, the City will not be able to recover the value of its investment securities that are in the possession of an outside party. At December 31, 2016, all investments were insured or the securities were held by the City or its agent in the name of the City.

The following is a summary of the City's investments as of December 31, 2016:

| | | Weighted |
|-------------------------|---------------------|--------------|
| | Fair | Average |
| | Value | Maturity |
| Certificates of Deposit | <u>\$ 3,589,463</u> | N/A, unrated |

NOTES TO THE FINANCIAL STATEMENTS

NOTE 4: Long-Term Debt

General Obligation Tax Increment Bonds

The general obligation tax increment bonds were issued to fund redevelopment projects. The additional property taxes resulting from the increased tax capacity of the redeveloped properties will be used to retire these bonds.

General Obligation Note

General obligation note proceeds were used to finance capital asset expenditures and will be repaid by future property taxes.

General Obligation Revenue Bonds and Notes

General obligation revenue bonds and notes were used to finance capital improvements in the City's enterprise funds. These bonds and notes will be repaid from water and sewer utility revenues.

A summary of long-term debt obligations outstanding as of December 31, 2016 balances is as follows:

| | Interest Rates | Final <u>Maturity</u> | 1 | Balance 2/31/2016 |

NOTES TO THE FINANCIAL STATEMENTS

NOTE 7: Defined Benefit Pension Plans – Statewide

Plan Description

The City of Dundas participates in the following cost-sharing multiple-employer defined benefit pension plans administered by the Public Employees Retirement Association of Minnesota (PERA). PERA's defined benefit pension plans are established and administered in accordance with Minnesota Statutes, Chapters 353 and 356. PERA's defined benefit pension plans are tax qualified plans under Section 401 (a) of the Internal Revenue Code.

- 1. General Employees Retirement Fund (GERF)
- All full-time and certain part-time employees of the City of Dundas and covered by the General Employees Retirement Fund (GERF). GERF members belong to either the Coordinated Plan or the Basic Plan. Coordinated Plan members are covered by Social Security and Basic Plan members are not. The Basic Plan was closed to new members in 1967. All new members must participate in the Coordinated Plan.
- 2. Public Employees Police and Fire Fund (PEPFF) The (PEPFF), originally established for police officers and firefighters not covered by a local relief association, now covers all police officers and firefighters hired since 1980. Effective July 1, 1999, the PEPFF also covers police officers and firefighters belonging to local relief associations that elected to merge with and transfer assets and administration to PERA.

NOTES TO THE FINANCIAL STATEMENTS

NOTE 7: Defined Benefit Pension Plans – Statewide (continued)

Benefits Provided

PERA provides retirement, disability, and death benefits. Benefit provisions are established by the state statute and can only be modified by the state legislature.

Benefit increases are provided to benefit recipients each January. Increases are related to the funding ratio of the plan. Members in plans that are at least 90 % funded for two consecutive years are given 2.5% increases. Members in plans that have not exceeded 90% funded, or have fallen below 80%, are given 1% increases.

The benefit provisions stated in the following paragraphs of this section are current provisions and apply to active plan participants. Vested, terminated employees who are entitles to benefits but are not receiving them yet are bound by the provisions in effect at the time they last terminated their public service.

1. General Employees Plan Benefits

General Employee Plan benefits are based on a member's highest average salary for any five successive years of allowable service, age, and years of credit at termination of service. Two methods are used to compute benefits for PERA's Coordinated and Basic Plan members. The retiring member receives the higher of a step-rate benefit accrual formula (Method 1) or a level accrual formula (Method 2). Under Method 1, the annuity accrual rate for a Basic Plan member is 2.2% of average salary for each of the first ten years of service and 2.7% for each remaining year. The annuity accrual rate for a Coordinated Plan member is 1.2 % of average salary for each of the first ten years and 1.7% for each remaining year. Under Method 2, the annuity accrual rate is 2.7% of average salary for Basic Plan members and 1.7% for Coordinated Plan members for each year of service. For members hired prior to July 1, 1989 a full annuity is available when age plus years of service equal 90 and normal retirement age is 65. For members hired on or after July 1, 1989, normal retirement age is the age for unreduced Social Security benefits capped at 66.

2. Police and Fire Plan Benefits

Police and Fire Plan member benefits first hired after June 30, 2010, but before July 1, 2014, vest on a prorated basis from 50% after five years up to 100% after ten years of credited service. Benefits for Police and Fire Plan members first hired after June 30, 2014, vest on a prorated basis from 50% after ten years up to 100% after twenty years of credited service. The annuity accrual rate is 3% of average salary for each year of service. For Police and Fire Plan members who were first hired prior to July 1, 1989, a full annuity is available when age plus years of service equal at least 90.

NOTES TO THE FINANCIAL STATEMENTS

NOTE 7: Defined Benefit Pension Plans – Statewide (continued)

Contributions

Minnesota Statutes Chapter 353 sets the rated for employer and employee contributions. Contribution rates can only be modified by the state legislature.

1. General Employees Fund Contributions

Basic Plan members and Coordinated Plan members were required to contribute 9.1% and 6.50%, respectively, of their annual covered salary in calendar year 2016. The City of Dundas was required to contribute 11.78% of pay for Basic Plan members and 7.50% in calendar year 2016. The City's contributions to the General Employees Fund for the year ended December 31, 2016 were \$18,175. The City's contributions were equal to the required contributions as set by state statute.

2. Police and Fire Fund Contributions

Plan members were required to contribute 10.8% of their annual covered salary in calendar year 2016. The City of Dundas was required to contribute 16.20% of pay in calendar year 2016. The City of Dundas' contributions to the Police and Fire Fund for the year ended December 31, 2016 were \$26,365. The City of Dundas contributions were equal to the required contributions as set by state statute.

Pension Costs

1. General Employee Fund Pension Cost

At December 31, 2016, the City of Dundas reported a liability of \$308,541 for its proportionate share of the General Employees Fund's net pension liability. The net pension liability was measured as of June 30, 2016, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The City's proportion of the net pension liability was based on the City of Dundas' contributions received by PERA during the measurement period for employer payroll paid dates from July 1, 2015, through June 30, 2016, relative to the total employer contributions received from all of PERA's participating employers. At June 30, 2016, the City's proportion share was .0038% which was a decrease of .0002% for its proportion measured as of June 30,2015.

For the year ended December 31, 2016, the City of Dundas recognized pension expense of \$40,174 for its proportionate share of the GERF's pension expense.

At December 31, 2016, the City of Dundas reported its proportionate share of the GERF's deferred outflows of resources and deferred inflows of resources related to pensions form the following sources:

| | D | eferred | Deferred Inflows | |
|---|-----|-----------|------------------|--------|
| | Out | tflows of | of Resources | |
| | Re | sources | | |
| Differences between expected and actual economic experience | \$ | 757 | \$ | 21,928 |
| Changes in actuarial assumptions | \$ | 65,497 | | - |
| Difference between projected and actual investment earnings | \$ | 54,392 | \$ | 21,323 |
| Changed in proportion | | - | | - |
| Contributions paid to PERA subsequent to the measurement date | \$ | 9,127 | | - |
| Total | \$ | 129,773 | \$ | 53,373 |

NOTES TO THE FINANCIAL STATEMENTS

NOTE 7: Defined Benefit Pension Plans – Statewide (continued)

Pension Costs (continued)

1. General Employee Fund Pension Cost (continued)

\$9,127 reported as deferred outflows of resources related to pensions resulting from the City of Dundas contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended December 31, 2017. Other amounts reported as deferred outflows and inflows of resources relate to pensions will be recognized in pension expense as follows:

| Year ended December 31: | Pension Expense Amount |
|-------------------------|------------------------|
| 2017 | \$(16,798) |
| 2018 | \$(16,788) |
| 2019 | \$(22,542) |
| 2020 | \$(11,145) |
| 2021 | 0 |
| Thereafter | 0 |

2. Police and Fire Fund Pension Costs

At December 31, 2016, the City of Dundas reported a liability of \$642,108 for its proportionate share of the PEPFF's net pension liability. The net pension liability was measured as of June 30, 2016, and the total pension liability used to calculate the net pension lability was determined by an actuarial valuation as of that dated. The City's proportion of the net pension liability was based on the City's contributions received by PERA during the measurement period for employer payroll paid dates for July 1, 2015, through June 30, 2016, relative to the total employer contributions received from all of PERA's participating employers. At June 30, 2016, the City's proportion was .016% which was an increase of .001% from its proportion measured as of June 30, 2015.

For the year ended December 31, 2016, the City of Dundas recognized pension expense of \$111,077for its proportionate share of the PEPFF's pension expense.

At December 31, 2016, the City of Dundas reported its proportionate share of PPFF's deferred outflows of resources and deferred inflows of resource related to pensions form the following sources:

| | Deferred Outflows of | | Deferred Inflow of Resources | |
|---|-------------------------|----------|---------------------------------|--------|
| | R | esources | | |
| Differences between expected and actual economic experience | \$ | - | \$ | 66,660 |
| Changes in actuarial assumptions | \$ | 372,277 | | - |
| Difference between projected and actual investment earnings | \$ | 62,315 | | - |
| Changed in proportion | \$ | 14,869 | | - |
| Contributions paid to PERA subsequent to the measurement | \$ | 13,527 | | - |
| date | | | | |
| Total | \$ | 462,988 | \$ | 66,660 |

NOTES TO THE FINANCIAL STATEMENTS

NOTE 7: Defined Benefit Pension Plans - Statewide (continued)

Pension Costs (continued)

2. Police and Fire Fund Pension Costs (continued)

\$13,527 reported as deferred outflows of resources related to pensions resulting from the City of Dundas contributions subsequent to the measurement dates will be recognizes as a reduction of the net pension liability in the year ended December 31,2017. Other amounts reported as deferred outflows and inflows of resources related to pensions will be recognized in pension expense as follows:

| Year ended December 31: | Pension Expense Amount |
|-------------------------|------------------------|
| 2016 | \$(90,278) |
| 2017 | \$(90,280) |
| 2018 | \$(105,204) |
| 2019 | \$(91,129) |
| 2020 | \$(10,016) |
| Thereafter | - |

Actuarial Assumptions

The total pension liability in the June 30, 2016, actuarial valuation was determines using the following actuarial assumptions:

| Inflation | 2.50% per year |
|------------------------------|----------------|
| Active Member Payroll Growth | 3.25% per year |
| Investment Rate of Return | 7.50% |

Salary increases were based on a service-related table. Mortality rates for members, retirees, survivors and disabilitants were based on RP-2014 tables for the General Employees Plan and the RP-2000 Tables for the Police and Fire Plan for males or females, as appropriate, with slight adjustments. Cost of living benefit increases for retirees are assumed to be: 1% for all future years for the General Employees Plan and Police and Fire Plan.

Actuarial assumptions used in the June 30, 2016, valuation were based on the results of actuarial experience studies. The most recent four-year study in the General Employees Plan was completed in 2015. The experience study for Police and Fire Plan was for the period July 1, 2004, through June 30, 2009.

The following changes in actuarial assumptions for the General Employees Fund occurred in 2016:

General Employees Fund

- The assumed post-retirement benefit increase rate was changed from 1% per year through 2035 and 2.5% per year thereafter to 1.0% for all future years.
- The assumed investment return was changed from 7.9% to 7.5%. The single discount rate was changed from 7.9% to 7.5%.
- Other assumptions were changed pursuant to the experience study dated June 30, 2015. The assumed future salary increases, payroll growth, and inflation were decreased by 0.25% to 3.25% for payroll growth and 2.5% for inflation.

NOTES TO THE FINANCIAL STATEMENTS

NOTE 7: Defined Benefit Pension Plans – Statewide (continued)

Actuarial Assumptions (continued)

Police and Fire Fund

- The assumed post-retirement benefit increase rate was changed from 1% per year through 2037 and 2.5% per year thereafter to 1.0% for all future years.
- The assumed investment return was changed from 7.9% to 7.5%. The single discount rate was changed from 7.9% to 5.6%.
- The assumed future salary increases, payroll growth, and inflation were decreased by 0.25% to 3.25% for payroll growth and 2.5% for inflation.

The State Board of Investment, which manages the investments of PERA, prepares an analysis of the reasonableness of the long-term expected rate of return on a regular basis using a building-block method in which best-estimate ranges of expected future rates of return are developed for each major asset class. These ranges are combined to produce an expected long-term rate of return by weighting the expected future rates of return by the target asset allocation percentages. The target allocation and best estimates of geometric real rates of return for each major asset class are summarized in the following table:

| | | Long-term |
|----------------------|--------------|----------------|
| | Target | Expected Real |
| Asset Class | _Allocation_ | Rate of Return |
| Domestic stocks | 45.00% | 5.50% |
| International stocks | 15.00% | 6.00% |
| Bonds | 18.00% | 1.45% |
| Alternative assets | 20.00% | 6.40% |
| Cash | 2.00% | .50% |

Discount Rate

The discount rate used to measure the total pension liability in 2016 was 7.5%, a reduction from the 7.9% used in 2015. The projection of cash flows used to determine the discount rate assumed that employee and employer contributions will be made at the rate specified in statute. Based on that assumption, the fiduciary net position of the General Employers Fund was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

NOTES TO THE FINANCIAL STATEMENTS

NOTE 7: Defined Benefit Pension Plans - Statewide (continued)

Discount Rate

In the Police and Fire Fund the fiduciary net position was projected to be available to make all projected future benefit payments of current plan members through June 30, 2056 and June 30, 2058 respectively. Beginning in fiscal years ended June 30, 2057 for the Police and Fire Fund, when projected benefit payments exceed the funds' projected fiduciary net position, benefit payments were discounted at the municipal bond rate of 2.85% based on an index of 20-year general obligation bonds with an average AA credit rating at the measurement date, An equivalent single discount rate of 5.60% for the Police and Fire Fund was determined that produced approximately the same present value of projected benefits when applied to all years of projected benefits as the present value of projected benefits using 7.50% applied to all years of projected benefits through the point of asset depletion and 2.85% after.

Pension Liability Sensitivity

The following presents the City of Dundas's proportionate share of the net pension liability for all plans it participated in, calculated using the discount rate disclosed in the preceding paragraph, as well as what the City's proportionate share of the net pension liability would be if it were calculated using a discount rate 1 percentage point lower or 1 percentage pint higher that the current discount rate:

| | 1% Decrease in Discount Rate (6.5%) | Discount Rate (7.5%) | 1% Increase in Discount Rate (8.5%) |
|--|--|----------------------|--|
| City of Dundas's proportionate share of the GERF net pension liability: | \$438,220 | \$308,541 | \$201,721 |
| | 1% Decrease in Discount Rate (4.6%) | Discount Rate (5.6%) | 1% Increase in Discount Rate (6.6%) |
| City of Dundas's proportionate share of the PEPFF net pension liability: | \$898,866 | \$642,108 | \$432,317 |

Pension Plan Fiduciary Net Position

Detailed information about each pension plan's fiduciary net position is available in a separately-issued PERA financial report that includes financial statements and required supplementary information. That report may be obtained on the Internet at www.mnpera.org

NOTES TO THE FINANCIAL STATEMENTS

NOTE 8: Commitments and Contingencies

State of Minnesota Grants

The City participated in several State of Minnesota grant programs. These grants are subject to compliance audits by the grantors and their representatives. The ultimate determination of the amounts earned under these grants is therefore subject to change pending completion and acceptance of these audits, if any. Until these audits are completed and accepted there exists a contingent liability that some amounts received under these grants will be in excess of the allowable costs. The City is of the opinion that no material liability will result from such audits, if any.

Tax Increment Districts

The City's tax increment districts are subject to review by the State of Minnesota Office of the State Auditor (OSA). Any disallowed or misuse of tax increments could become a liability of the applicable fund. Management has indicated that they are not aware of any instances of noncompliance which would have a material effect on the financial statements

Litigation

The City may be subject to potential litigation involving various personal injury and property loss claims. The City intends to contest vigorously any litigation, which may result from these claims. In addition, management believes no material uninsured loss will result from these claims.

Risk Management

The City is exposed to various risks of loss related to torts; thefts of; damage to; and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The City participates in the League of Minnesota Cities Insurance Trust (LMCIT) to provide its general liability and property coverage. The LMCIT is a public entity risk pool currently operated as a common risk management and insurance program for participating Minnesota cities. All cities in the LMCIT are jointly and severally liable for all claims and expenses of the pool. The amount of any liability in excess of assets of the pool may be assessed to the participating cities if a deficiency occurs. The City purchased worker's compensation insurance as required by *Minnesota Statute*.

NOTE 9. Subsequent Events

The City has evaluated subsequent events through June 12, 2017, the date which the financial statements were available to be issued.

INDEPENDENT AUDITOR'S REPORT ON MINNESOTA LEGAL COMPLIANCE

Honorable Mayor Members of the City Council City of Dundas, Minnesota

I have audited, in accordance with auditing standards generally accepted in the United States of America, the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the **City of Dundas, Minnesota** as of and for the year ended December 31, 2016 and the related notes to the financial statements and have issued my report thereon dated June 12, 2017.

The *Minnesota Legal Compliance Audit Guide for Cities*, promulgated by the State Auditor pursuant to Minn. Stat. § 6.65, contains seven categories of compliance to be tested: contracting and bidding, deposits and investments, conflicts of interest, public indebtedness, claims and disbursements, miscellaneous provisions and tax increment financing. My audit included all of the listed categories.

In connection with my audit, nothing came to my attention that caused me to believe that the **City of Dundas**, failed to comply with the provisions of the *Minnesota Legal Compliance Audit Guide for Cities*. However, my audit was not directed primarily toward obtaining knowledge of such noncompliance. Accordingly, had I performed additional procedures, other matters may have come to my attention regarding the **City of Dundas**, **Minnesota's** noncompliance with the above referenced provisions.

This report is intended solely for the information and use of those charged with governance and management of the **City of Dundas**, **Minnesota** and the State Auditor and is not intended to be, and should not be, used by anyone other than those specified parties.

Thomas M. Cummings

Certified Public Accountant
